2.01.12 Automobile

The menu “Automobile” administers the automobiles within the system. The automobiles will be issued a holder and an appointment for the inspection. The automobiles will be needed for the transportation billing.

Tip: further information on this topic can be found under article [4.1.02 Administration of Key Data](#).

The screenshot shows a software window titled "Fahrzeug MZ-PS-1081". It has a menu bar with "Dokument", "Bearbeiten", "Ansicht", and "Rückverweise". The form contains the following fields:

- Fahrzeug:** Text field containing "MZ-PS-1081".
- Mitarbeiter:** Dropdown menu showing "Schaub Peter" with search and delete icons.
- Fahrzeug-Marke:** Text field containing "Audi A4".
- Interner KM-Satz:** Text field containing "0,30" followed by "EUR".
- Externer KM-Satz:** Text field containing "0,65" followed by "EUR".
- Erstzulassung:** Date field showing "06.01.2008" with a calendar icon.
- ASU-Termin:** Date field showing "06.01.2011" with a calendar icon.
- TÜV-Termin:** Date field showing "06.01.2011" with a calendar icon.
- KFZ-Nummer:** Empty text field.
- Bemerkung:** Empty text area.

The menu contains the following elements:

- **Automobile:** The alphanumeric field “Automobile” specifies the exact type of automobile is used for the vehicle.
- **Car:** The alphanumeric field “Car” specifies the exact type of car that is used for the transport.
- **Employee:** In the field “Holder” the holder to the corresponding car will be designated. Only the employees, who are entered and listed in the system, are considered for this field. (see also the menu “Employees”)
- **Automobile-Type:** This field specifies the model of the car.
- **Internal Kilometer Price:** This is where the car-specified car costs per kilometer can be entered. These cost are pulled down for the bill of charges. If this field is not filled, then the distance flatrate out of the menu configuration will be pulled-down and used for the bill of charges.

- **External Kilometer Price:** This is where the car-specified rates for the transfer costs per kilometer are entered. If this field is not filled, then the distance flatrate out the menu configuration will pulled-down and used for the bill of charges.
- **Date of First Registration:** In the field "Date of First Registration" the date of first registration will be entered. The system calculates automatically out of this the expiration date of the emission's test (ASU) and of the technical inspection (TÜV).
- **Emission's Test (ASU) and Technical Inspection's Test (TÜV):** Both fields are there to specify the date of the emission's test and the date of the technical inspection. On the basis of the first date of registration, the fields for "Emission's Test (ASU) and Technical Inspection's Test (TÜV)" in accordance with the lawful regulated specifications, are set by default automatically from the system.
- **Car Identification Number:** This field administers the information within the car's registration papers.
- **Comments:** This field is designated for comments.
