## 2.01.2 Contact Person

The **Contact Person** form administers any amount of contact persons to the assigned contact. Information about the department and function of the contact persons and the way of communication are defined here. A differing company address can also be defined here.

**Tip:** For more on this subject see chapter [4.1.04 Contact System](#).

The screenshot shows a web-based form for managing contact information. The form is titled "Contact Williams George" and has a menu bar with options: Document, Edit, View, Back references, and Actions. Below the menu bar are tabs for "Master data", "History", "Office", "Details", "Privat", and "Misc". The "Master data" tab is selected. The form contains several input fields: "Number" (1), "Customer" (Customer TLC Telecommunications Corporation), "Type" (Entrepreneur), "Salutation" (Mister), "Titel" (Dr.), "Contact name" (Williams), "Contact first name" (George), "Department" (empty), "Function" (empty), "Phone number" (+44 1234564567), "Fax number" (+44 1234564567), "Cell phone number" (empty), "Email" (williams@tlc.com, mailto:williams@tlc.com), and "Note" (empty).

The form consists of the following elements:

On the "Master Data" tab:

- **Number:** This element designates distinctly the contact in System.
- **Customer:** This field refers to the company of the contact person.
- **Type:** In field Type, the in Collections (see Administration Guide) defined employee relation of the contact person (external employee, permanent employee, freelance, employer, etc.) can be assigned here.
