2.01.22 Action

The **Action** form administers all actions concerning the contact person of the contact. An action can be date-stamped and commented on from the employee/consultant. An action can also be marked if it has been completed. These actions can be displayed in Contact Chart.

Tip: For more on this subject see chapter [4.1.04 Contact System](#).

The form consists of the following elements:

On the “Master data” tab:

- **Action:** The numeric field Action specifies Action distinctly.
- **Customer, Contact Person:** The alphanumeric field contact person specifies the contact person and the firm of the contact person.
- **Project Description:** This field specifies the project corresponding to the action.
- **Due On:** The numeric field Date specifies the date of the action. The current date from the system is used as the default.
- **Action Type:** In the field Action Type the in Collections defined sales and marketing activities and actions or project actions of a business contact can be defined.
- **Priority:** This field specifies the significance of the action; for example to regulate/control the resubmission (actions, which are not yet completed).
- **Arranger:** An action can be assigned to the responsible employee. The agents/consultants are administered in the Employees form.
- **Note:** Comments concerning actions can be entered in this field.
- **Completed:** The action can be marked as processed/completed with this check box. Non-completed actions can always be displayed, if needed, in the contact overview.

Action 1-1 Williams George Meeting
