## 2.02.10 Project-related Employee Rates

The **Project-Related Employee Rates** form administers the occupation rates, which are adjusted for a defined project. When these rates are defined for a project or sub-project, these values override the global employee rates (see also costing and pricing).

**Tip:** For more on this subject see chapter [2.01.22 Occupations](#).

Project	3 Introduction Projectile
Employee	Timothy Jones
Function	Developer
Hourly rate	125,00 EUR
Note	

The form consists of the following elements:

- **Project:** This field specifies the corresponding project.
- **Employee:** This field specifies the employee, for whom the project is adjusted. Changes made here, do not change the original employee rate.
- **Function:** This field is pre-occupied with the function of the employee and can be changed for the defined project.
- **Hourly Rate:** The charge/cost rate are defined here. This is then used when billing the customer for this project.
- **Note:** This field is designated for comments.
