2.3.07 Item Sheet

Using the **item sheet** form, project-related invoicing/charging of external services and/or items are possible. The amount of defined external services (for example, items or licenses) in the the Main Data module are assigned to a project. The sales price is pre-occupied with the suggested retail price of the item and the appropriate total price is displayed.

Tip: For more on this subject see chapter [4.3.05 External costs recording](#).

Item sheet 1 Projectile Basis Projectile Basis PRB

Master data Misc

Number 1

Item Projectile Basis Projectile Basis PI

Employee Timothy Jones

Project 3 Introduction Projectile

Date 06.10.2009

Cost Project costs

NumberGroup Number1 1 Stk Amount 2 1 Stk Amount 3 1 Stk

Item price 2.000,00 EUR

Sum 2.000,00 EUR

Cost center Engineering

Note

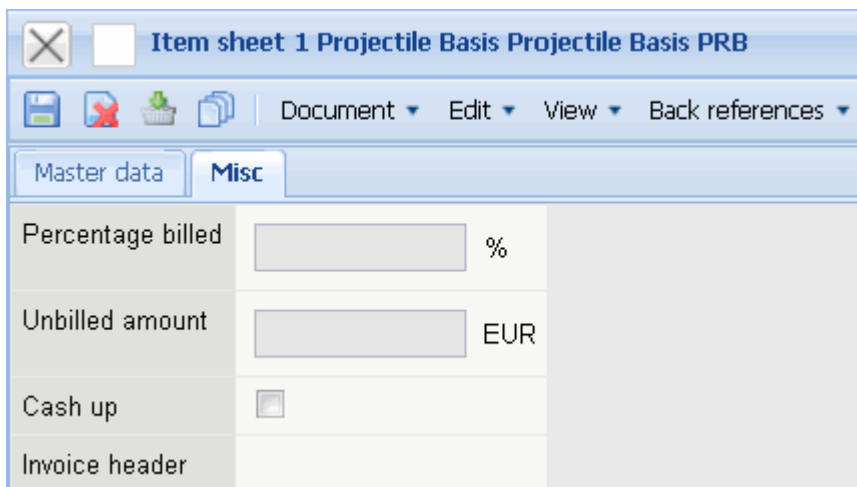

The document type consists of the following elements:

On the “Master data” tab:

- **Number:** This numerical field specifies distinctly the external costs. This number is suggested from the system.
- **External Services:** This alphanumerical field specifies the external services, which are billed project-related. These external services are administered in the external services form.
- **Employee:** In this field, the employee who recorded the data record for the external service is selected. By default, this field is pre-occupied with the employee, who has logged on to the system. Employees can be administered in the Employee form.
- **Project:** The field Project specifies the project, to which the external costs are assigned. Projects can be defined and modified in the Project form.
- **Date:** This field describes the date of the charges (Weiterbelastung). This entry is automatically

performed through the system.

- **Cost Type:** This field specifies the cost type for the external service. The cost type can be defined and modified in the Cost Type form.
- **Amount:** This field specifies the amount of items and/or external services are billed for this project.
- **Net:** In this field, the sales price per item or external service is defined. This field is pre-occupied with the suggested retail price of the external service.
- **Total costs:** This field specifies the total amount of the external costs (the results of the amount multiplied with the sales price).
- **Comments:** This field is designated for comments.
- **Billed:** This element specifies, if the external costs are already billed. This box is automatically set, when the external costs are transferred to an invoice and this invoice has been billed.

The screenshot shows a software interface for an 'Item sheet'. The title bar reads 'Item sheet 1 Projectile Basis Projectile Basis PRB'. Below the title bar is a menu bar with 'Document', 'Edit', 'View', and 'Back references'. The 'Misc' tab is selected, showing a form with the following fields:

Percentage billed	<input type="text"/>	%
Unbilled amount	<input type="text"/>	EUR
Cash up	<input type="checkbox"/>	
Invoice header		

On the "Misc" tab:

- **Percentage billed:**
- **Unbilled amount:**
- **Cashed up:**
