## 2.3.07 Item Sheet

Using the **item sheet** form, project-related invoicing/charging of external services and/or items are possible. The amount of defined external services (for example, items or licenses) in the the Main Data module are assigned to a project. The sales price is pre-occupied with the suggested retail price of the item and the appropriate total price is displayed.

**Tip:** For more on this subject see chapter [Item Sheet Recording](#).

**Item sheet 1 Projectile Basis Projectile Basis PRB**

Document Edit View Back references

**Master data** Misc

**Number** 1

**Item** Projectile Basis Projectile Basis PI

**Employee** Timothy Jones

**Project** 3 Introduction Projectile

**Date** 06.10.2009

**Cost** Project costs

**NumberGroup** Number1 1 Stk Amount 2 1 Stk Amount 3 1 Stk

**Item price** 2.000,00 EUR

**Sum** 2.000,00 EUR

**Cost center** Engineering

**Note**

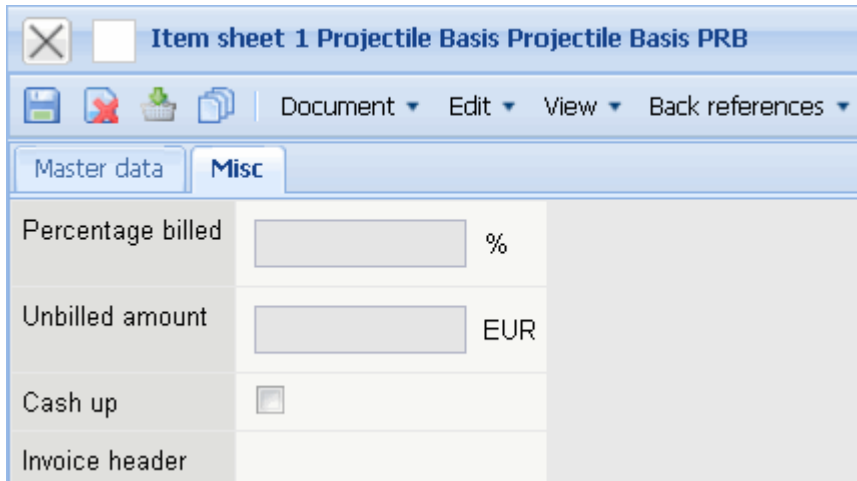

The document type consists of the following elements:

On the “Master data” tab:

- **Number:** This numerical field specifies distinctly the external costs. This number is suggested from the system.
- **External Services:** This alphanumerical field specifies the external services, which are billed project-related. These external services are administered in the external services form.
- **Employee:** In this field, the employee who recorded the data record for the external service is selected. By default, this field is pre-occupied with the employee, who has logged on to the system. Employees can be administered in the Employee form.
- **Project:** The field Project specifies the project, to which the external costs are assigned. Projects can be defined and modified in the Project form.
- **Date:** This field describes the date of the charges (Weiterbelastung). This entry is automatically

performed through the system.

- **Cost:** This field specifies the cost type for the external service. The cost type can be defined and modified in the Cost Type form.
- **Amount:** This field specifies the amount of items and/or external services are billed for this project.
- **Net:** In this field, the sales price per item or external service is defined. This field is pre-occupied with the suggested retail price of the external service.
- **Total costs:** This field specifies the total amount of the external costs (the results of the amount multiplied with the sales price).
- **Comments:** This field is designated for comments.

On the “Misc” tab:

- **Percentage billed:** In this field the percentage of the complete billed invoice is displayed.
- **Unbilled amount:** In this field the amount remained to be billed is displayed.
- **Cash up:** This element specifies, if the external costs are already billed. This box is automatically set, when the external costs are transferred to an invoice and this invoice has been billed.
- **Invoice Header:** Here the appropriate invoice can be accessed through a link.
