## 2.3.08 Status Report

Using the **Status Report** form allows evaluating a project at any given time. These subjective and/or qualitative characteristics are exchanged through quantitative key figures automatically for reporting. Using the information of this form and the evaluation system, an rtf-file is produced, which consists of information about the evaluation and decision demand, time/effort and cost information and Earned-Value-Analysis.

**Tip:** For more on this subject see chapter [4.3.07 Status report recording](#).

Master data Comments DecisionDemand	
Number	3.1
Project	3 Introduction Projectile
Report date	06.10.2009 12:14:05
Employee	Hahn Katrina
DeadlineState	2
CostState	3
QualityState	1
OwnEffort	13.000,00 EUR
ThirdPartyEffort	12.000,00 EUR
RealCosts	3.500,00 EUR
EstimatedProjectEnd	22.07.2009
Note	
ID	2

The form consists of the following elements:

On the "Master Data" tab:

- **Number:** This alphanumerical field specifies the status report distinctly in the system.
- **Project:** This field defines the project, to which the defined process belongs. A process can be assigned to a parent project as well as a sub-project. The projects can be defined and modified in the project form.

- **Report Date:** The field report date specifies the date and time of the status report. By default, the current date is pre-occupied from the system.
- **Employee:** The employee responsible for the status report is pre-occupied here. The employees are administered in the Employee form.
- **Deadline Status :** The deadline status of the project is entered here from the user. In the standard the status 0 - Favorable, 1- Scheduled, 2 - Problematic und 3 - Critical are stored. The status can be defined and modified in Collections (ProjectReportStates).
- **Cost Status:** The cost status of the project is entered here from the user. In the standard the status 0 - Favorable, 1- Scheduled, 2 - Problematic und 3 - Critical are stored. The status can be defined and modified in Collections (ProjectReportStates).
- **Quality Status:** The quality status of the project is entered here from the user. In the standard the status 0 - Favorable, 1- Scheduled, 2 - Problematic und 3 - Critical are stored. The status can be defined and modified in Collections (ProjectReportStates).
- **Internal Service Rest:** The presumable remaining costs for internal services for the project are stored as forecast here.
- **External Service Rest:** The presumable remaining costs for external services for the project are stored as forecast here.
- **Real Costs Rest:** The presumable remaining costs for real costs for the project are stored as forecast here.
- **Estimated Project End :** The presumable end deadkine of the project is stored here.
- **Comments:** This field is designated for comments concerning the status report.

Comment Type	Text
CriticalComment	External budgets completely depleted; internal budgets slightly overdrawn
ProblemComment	Deadline cannot be met
PlannedComment	All approvals without limits
AheadComment	
RemarkPositive	none

On the "Comments" tab:

- **Comments - Critical, Problematic, Scheduled and Favorable:** If applicable, comments concerning the status messages deadlines, cost and quality (see Master data) are stored. .
- **Positive and Negative Remarks:** Positive und negative remarks for the progress of the project can be stored here.

- **Critical Factors/Risks:** Critical factors and/or risks for the progress of the project can be stored here. The risk management module is a further possibility to administer risks for the project.
- **Change Requests:** Change requests for the project can be stored here. The project change form offers a further possibility to store change request for the project.

The screenshot shows a web application window titled "Statusbericht 138.1 138 Einführung Projectile 19.11.2009 22:07:42 Schaub Peter". The interface includes a menu bar with "Dokument", "Bearbeiten", "Ansicht", "Rückverweise", and "Aktionen". Below the menu are tabs for "Stammblatt", "Kommentare", and "Entscheidungsbedarf". The "Entscheidungsbedarf" tab is active, displaying two sections for decision requirements.

**Entscheidungsbedarf1**
