2.05.02 Assessment Chart

The **assessment chart** generates the financial charts in the system. Included are i.e., cost evaluation (target/performance comparison, i.e. budgets for costs, as well as detailed evaluation), commercial invoice evaluation (offers, budgets, invoices, costs, cash flow and contribution margin, including detailed evaluation), overview of billable and billed services/work, a list of all open entries and the results charts.

Tip: For more on this subject see chapter [4.12.1 Applying Charts](#) and [4.12.4 Assessment Chart](#).

The form consists of the following elements:

1. Name

- **Name:** In this field the name of the chart is defined, if this should be saved (for example, for time services or for administrating the chart results).
- **Description:** In this field the description of the chart is defined, if this should be saved.

- **Chart:** The assessment chart contains the charts:
 - Cost evaluation and In-depth cost evaluation
 - Commercial invoice evaluation and In-depth commercial invoice evaluation
 - Billed time evaluation and Invoiced times (Projects)
 - Result evaluation
 - Open entries evaluation
 - Billed project times evaluation and Billed customer times evaluation

2. Input Data

- **Search:** It is possible to search for data for the chart with this selection box. This search entry must relate to the supported categories.
- **Search Machine: Search Word and Category:** This element is used to filter the selected data from the categories. Only the document type contact, employee, project and unit is available for selection. How to operate the search machine is described in chapter 3.2.2.3 and can be performed, if necessary, a multiple amount of times.
- **Input Data:** Under this field, the selected selection criteria for the chart are listed. This input data can derive from the „professional search“(Profisuche), the standard search machine or the personal clipboard.

3. Main Parameters

- **Chart Period:** This drop-down box refers to the chart's time span (elements start and end) and allows a parameterised definition of the time span for the time services. This selection (current week, current month, ..., next week, last week, ...) can be also used to simplify the manual definition of start and end.
- **Start and End:** In this field a time interval can be entered as selection criteria to limit the given period for the chart.

4. Further criteria: *Please enter further criteria here and select one of the charts in menu on top (right)*
