2 Projectile Overview

Projectile is a web-based application software designed for service providers for process enhancement. The software includes, alongside the modules for: contact and appointment management, portfolio and project management, time and billing management, also a billing module (to enable offers to be created and issue incoming and outgoing invoices) and a system's analysis as well as individualised add-on modules.

Projectile includes the following 4 basic modules and the optional billing module:

- [2.01 Basic Data](#)
- [2.02 Project Data](#)
- [2.03 Entry Module](#)
- [2.04 Billing Module \(optional\)](#)
- [2.05 Reporting](#)

Further functions of the basic version include:

- [2.06 Quick Entry and other Functions](#)
- [2.07 Archive and History](#)
- [2.08 Workflow-Module](#)
- [2.09 Internal Messaging System \(passive mailer\)](#)

Furthermore the following additional modules are also available optionally:

- [2.10 Report-Generator / Report-Maker](#)
- [2.11 Groupware-Module](#)
- [2.12 Product Documentation and Ticket-System - Product Management](#)
- [2.13 Knowledge and Information Management Systems - Infomarket](#)
