2.06.02 Billable Time

Performed work/effort is not always approved for billing as has been recorded. The entered times for invoicing in Projectile (see chapter [4.4.5 Invoicing](#)) can be calculated. This functionality is used predominantly from project leaders for preparing the invoicing.

Tip: For more on this subject see chapter [4.3.7 Billable Time Recording](#).

Note: This functionality is also available in TimeTracker and can be configured in the TimeTracker_Default (see Administration Guide)!
