3.02.01 Personal Clipboard

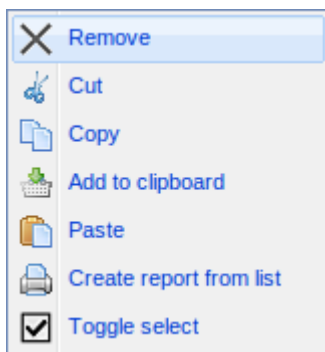

The personal clipboard of the logged on user is located in the bottom area of the left navigation menu. Using the personal clipboard, a user can administer his/her data as browser favorites. In the example below, the personal clipboard with the documents (Project 1 Introduction Projectile 2.5, Project 3.1 Introduction Accounting, Project 3.2 Projectplanning, Project 3 Introduction Projectile and Project 7 Update Projectile) are displayed:

For editing fields with multiple assignments, as in the personal clipboard, there is a central button for all editing functions (delete, cut, paste, create, create report,...) and the search window for full-text search. This button opens with either mouseover (default) or clicking the button.

The following tools are available for editing the clipboard:

Remove entry (and not copied in the cache memory), cut entry (and copy to the cache memory), copy the entry in the personal clipboard, add entry to clipboard (when data is in cache memory), create report from list (using [Report Maker](#)) and invert (toggle) entries (all selected entries are not marked or vice versa).

Entries can be either removed or cut from the clipboard. The difference: Using cut, the entry is copied to the cache memory and is available for the pasting. To remove entries from the clipboard, these entries are marked ...

		Description
☐	1	Project 3.2 Customizing
☐	2	Project 10 Management
☒	3	Project 39.2 Custom1
☐	4	Project 3 Introduction Projectile
☐	5	Project chart Chart result 7 - Job

... and then through clicking on remove, the entry ...

... can be removed (here Project MSP).

		Description
☐	1	Project 3.2 Customizing
☐	2	Project 10 Management
☐	3	Project 3 Introduction Projectile
☐	4	Project chart Chart result 7 - Job

When using cut, the entries are removed, but then held in the cache memory, so these entries are still available for pasting.

Entries in the clipboard (or search queries) can also be copied. When marking the entries ...

The personal clipboard can be opened in the top menu bar. In the entry "Clipboard" a function ...

... "Open Clipboard" and the contents of the personal clipboard can be found.

The function "Open Clipboard" opens the personal clipboard of the logged on user ...

... and clicking the entries of the clipboard (here Project) ...

... opens the form of the stored data record directly.

The screenshot shows the 'Project 3 Introduction Projectile' form. The form has a header bar with 'Project 3 Introduction Projectile' and a menu bar with 'Document', 'Edit', 'View', 'Back references', and 'Actions'. Below the menu bar are tabs for 'Master data', 'Involved persons', 'Portfolio', 'Status', 'Budget', 'Financial data', 'Order data', 'Documentation', and 'Misc'. The 'Master data' tab is active, showing fields for 'Project number' (Number 3), 'Status' (Active), 'Description' (Introduction Projectile), and 'Project start/end date' (From 09.06.2009 To 30.11.2009). The 'Subprojects' section shows a table with two rows: '3.1 Introduction Accounting' and '3.2 Projectplanning', both with 'Active' status.

Number	Description	Status
1 3.1	Introduction Accounting	Active
2 3.2	Projectplanning	Active

The screenshot shows the 'Projectile' software interface. At the top, there's a navigation bar with tabs like 'Tracking and Recording', 'Offers', 'Projects', 'Invoices', 'Contacts', 'Human resources', and 'Administration'. Below this is a 'Menu' sidebar on the left. The main window is titled 'Collection Query for Job'. It features a table with columns: 'ID', 'Description', and 'Closed'. A context menu is open over the table, with 'Copy' selected. The table contains the following data:

ID	Description	Closed
1	Project 7 Update Projectile	
2	Project 6.2 Implementation	
3	Project 4 Customizing CRM System	
4	Chart result 04 - Job chart target/actual	
5	Project 3 Introduction Projectile	
6	3-3	
7	3-3	
8	3-4	
9	3-5	
10	3-6	
11	3-7	

... pasted into the personal clipboard.

This screenshot shows a similar view to the previous one, but with the 'Paste' option selected in the context menu. The table structure and data are the same as in the first screenshot.
