3.02.04 Alternative Work Areas

Projectile offers the user up to eleven intro screens. The first screen is the standard screen, the second intro screen is the module view and all further views can be configured by the user.

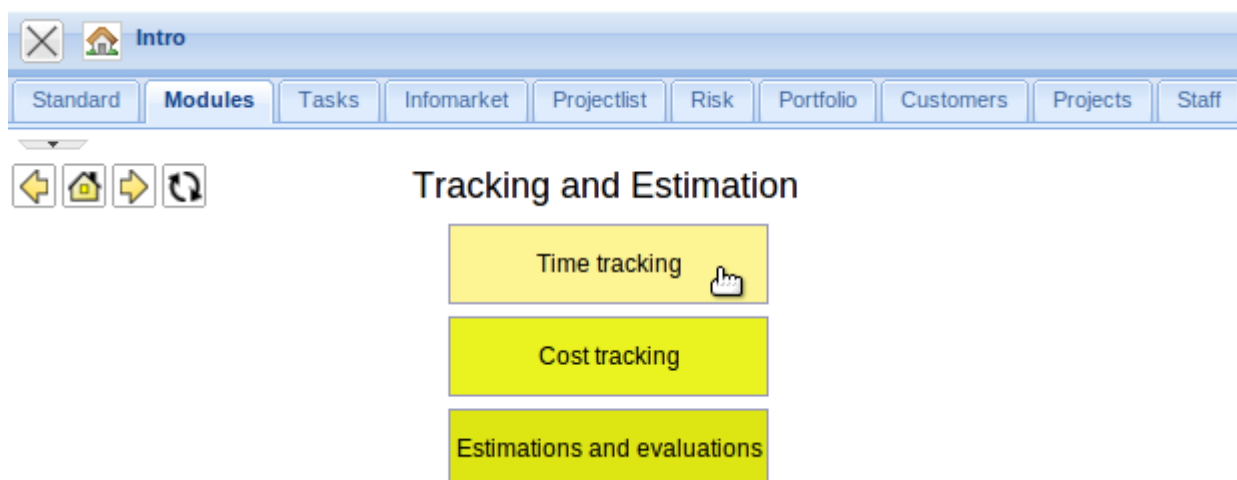

Besides the standard view, the module view is also provided. In this view all available functionalities (which are dependent on the access permissions) are displayed as processes. This view is opened through clicking the tab.

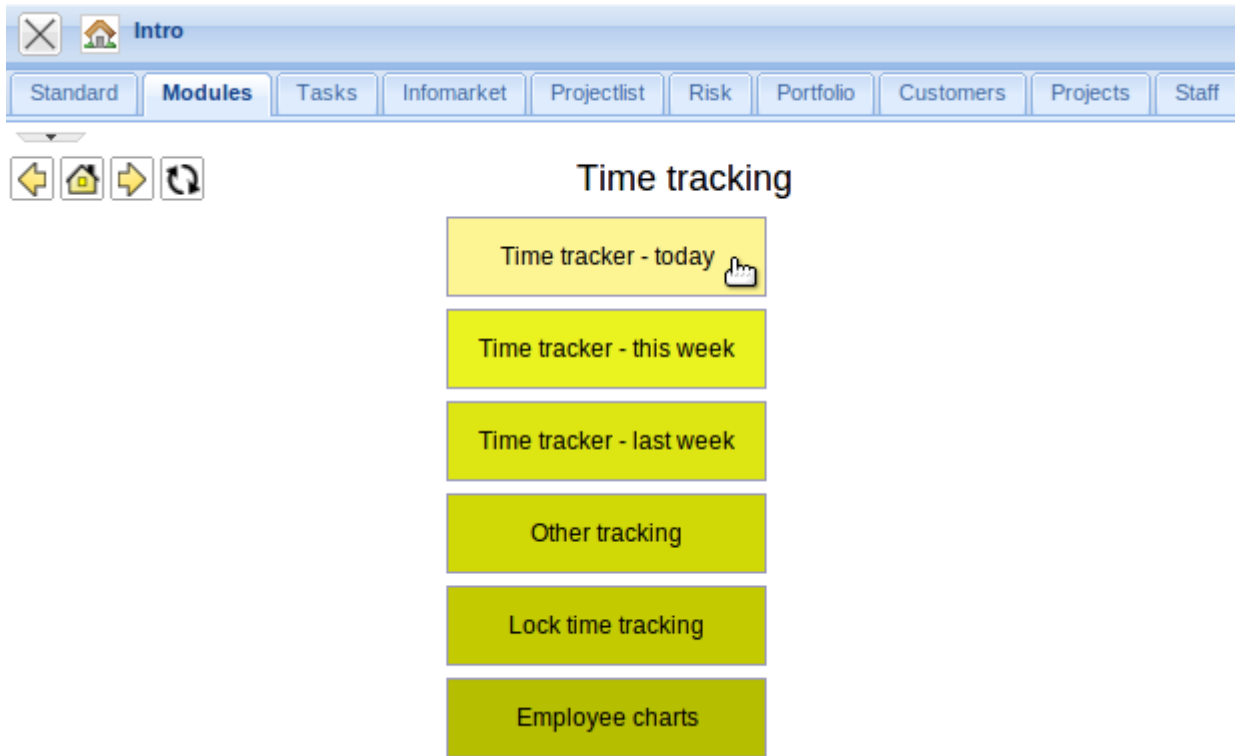

The application can then be used by clicking on the element in the process overview. In the example, the user changes to the “tracking and estimation” view ...

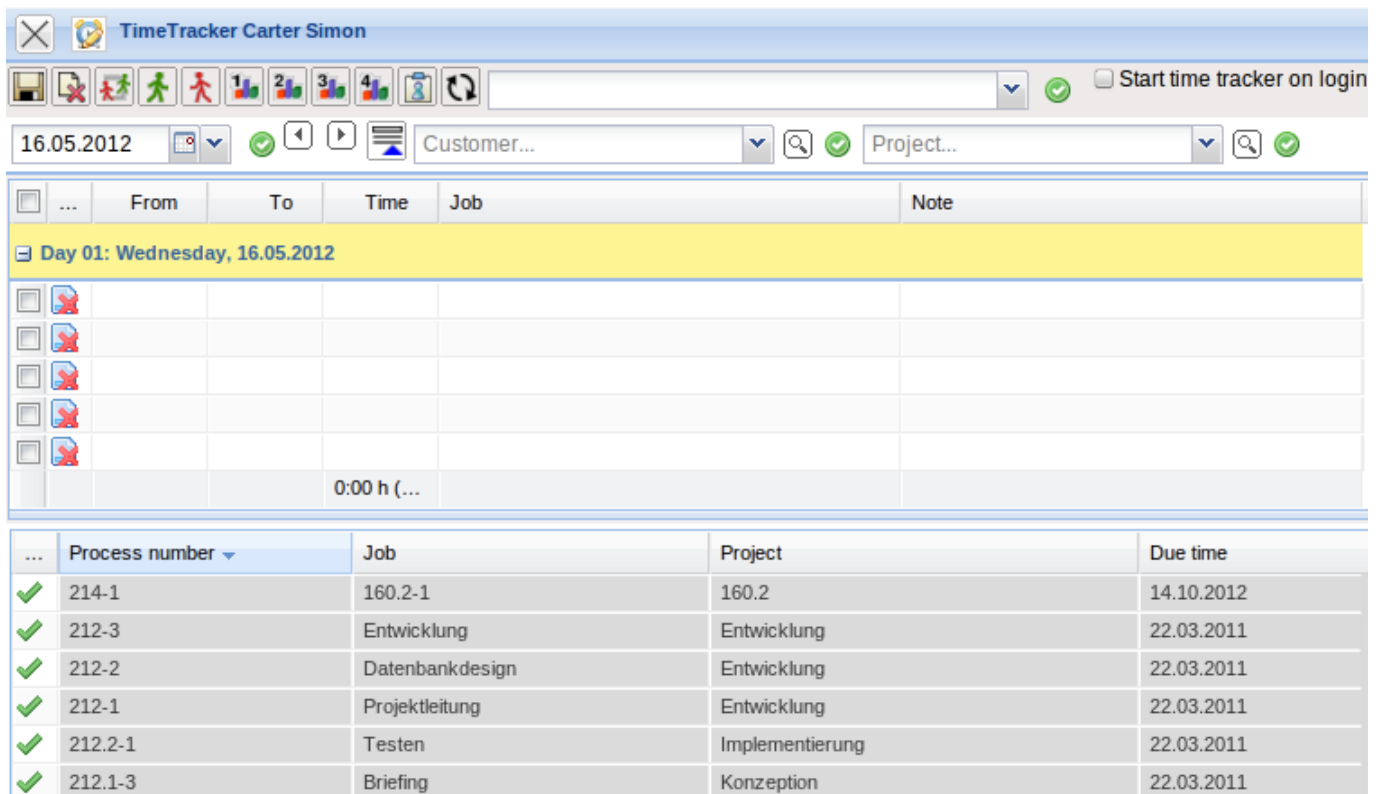

... and to the module "Time tracking" and then ...

in the functionality "Time tracker - today".

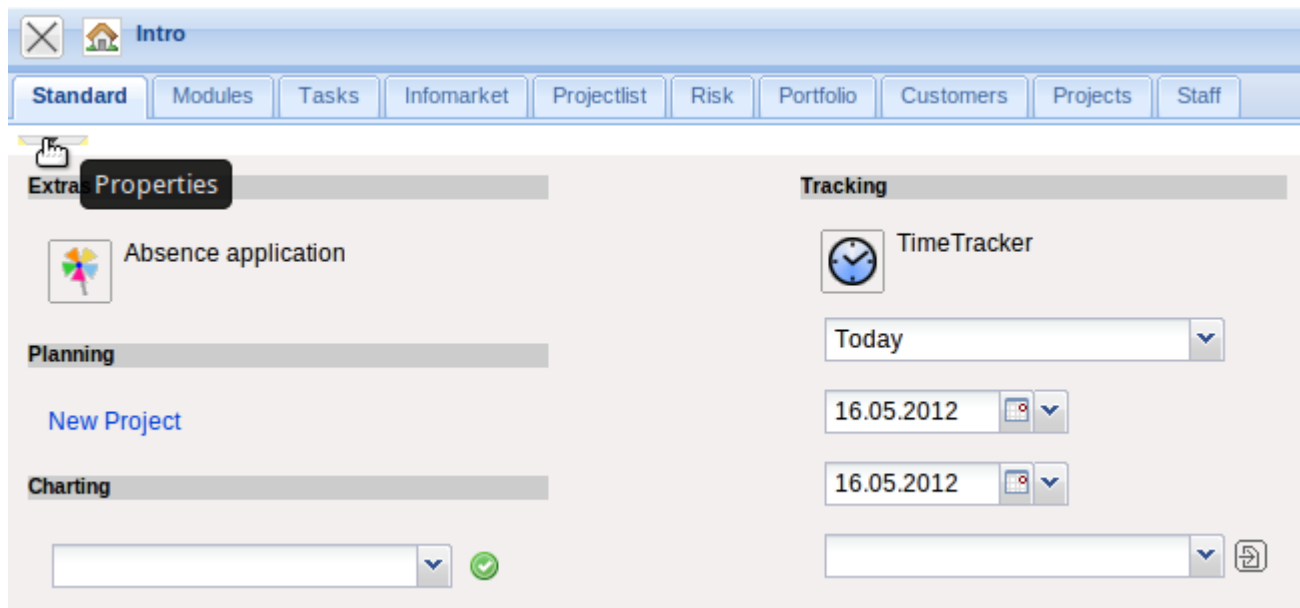

The TimeTracker opens to the current date:

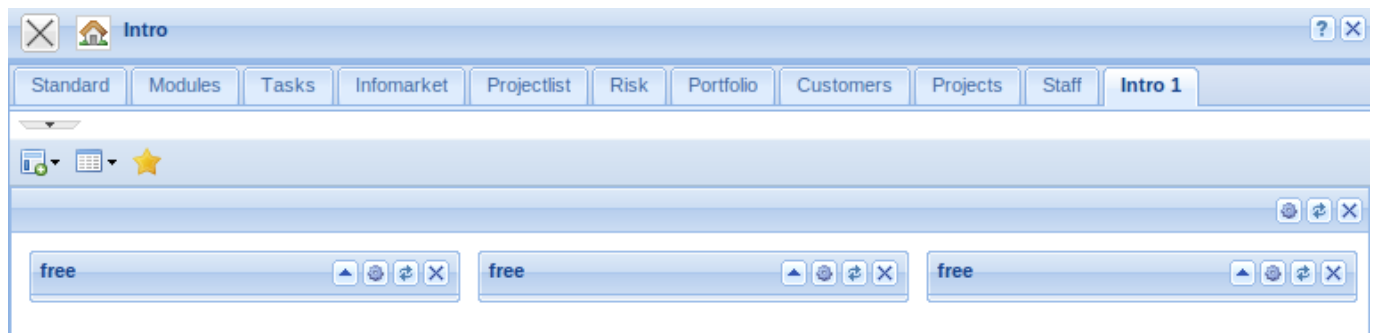

Intro Screens Set-Up

Using the option “My Intro” each user can directly access all important overviews and reports generated from the user. The intro screens can be configured through the properties function. Here, various intro screens can be named and the plug-ins can be added. In the current Projectile version, various personalized intro screens and further functionalities for these intro screens are available, for

example, for appointments (including actions, milestones and jobs) and queries from advanced search (Profi-Suche).

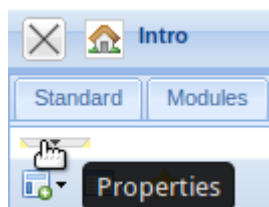

In the beginning, the empty intros look like the following:

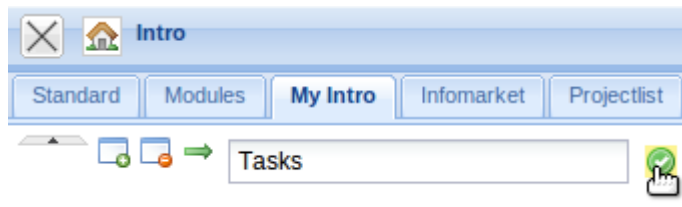

Design-Modus

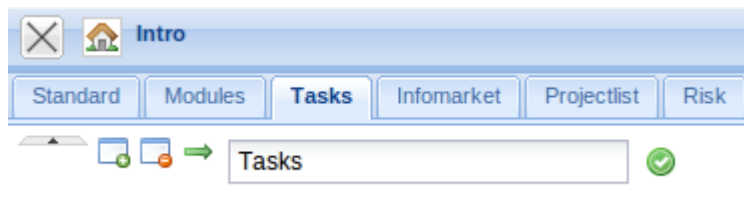

The individual intros can be configured. Change to the tab to be configured and then click the “properties” button:

The name can then be changed ...

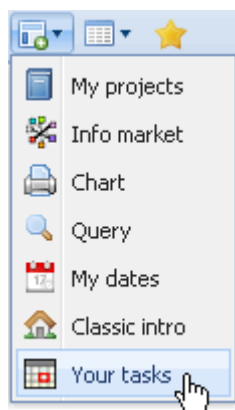

... and the entry is included after clicking the green check mark.

Adding Contents

In the lower part of the intros, contents can be defined, which can then be displayed. Predefined forms as My projects, Your tasks, My dates and the modules Info market and Classic intro can be selected.

Selecting an entry, for example, "Your tasks" ...

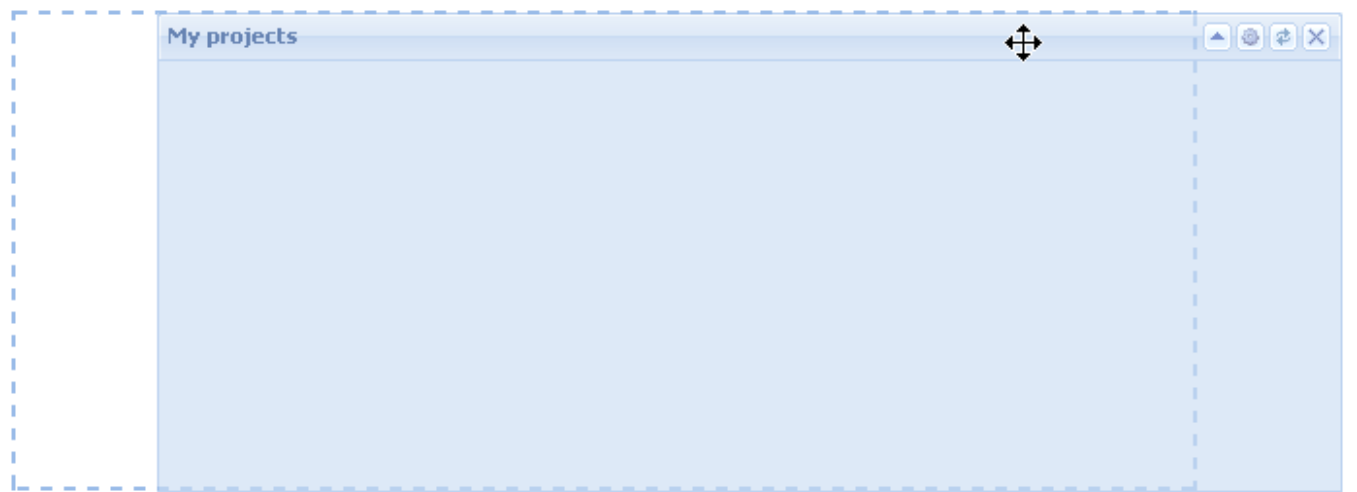

the form is displayed on the left column:

The screenshot shows the 'Intro' application interface. The top navigation bar includes tabs for 'Standard', 'Modules', 'Tasks', 'Infomarket', 'Project List', 'Risk', 'Portfolio', 'Customers', 'Projects', and 'Staff'. Below the navigation bar are buttons for 'Save as template', 'Load from template', and 'Delete IntroTemplate'. The main content area displays the 'Your tasks' window, which shows a calendar view of tasks. The 'Overdue' section lists tasks from Fri, 09.10.2009 to Fri, 30.10.2009. The 'Today' section shows 'Project - End planning : 9 Project planning'. The 'Tomorrow' section is empty. The 'Next 7 Days' section is also empty.

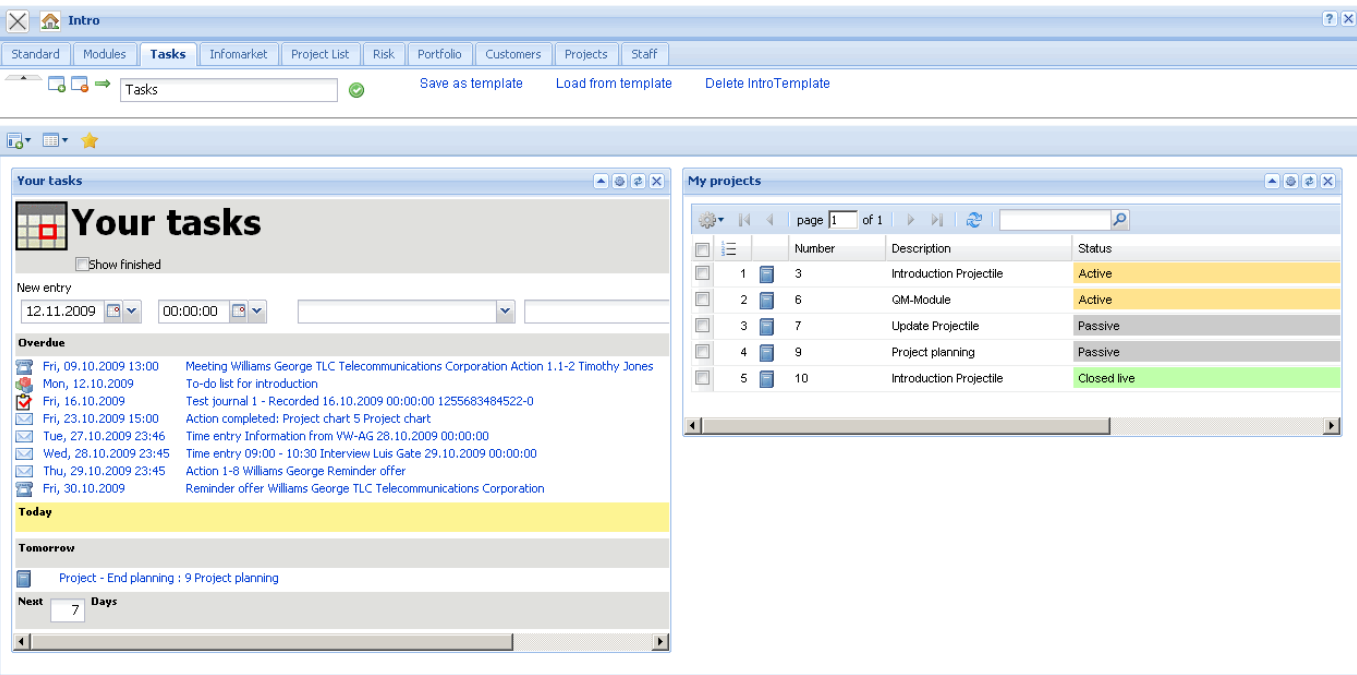

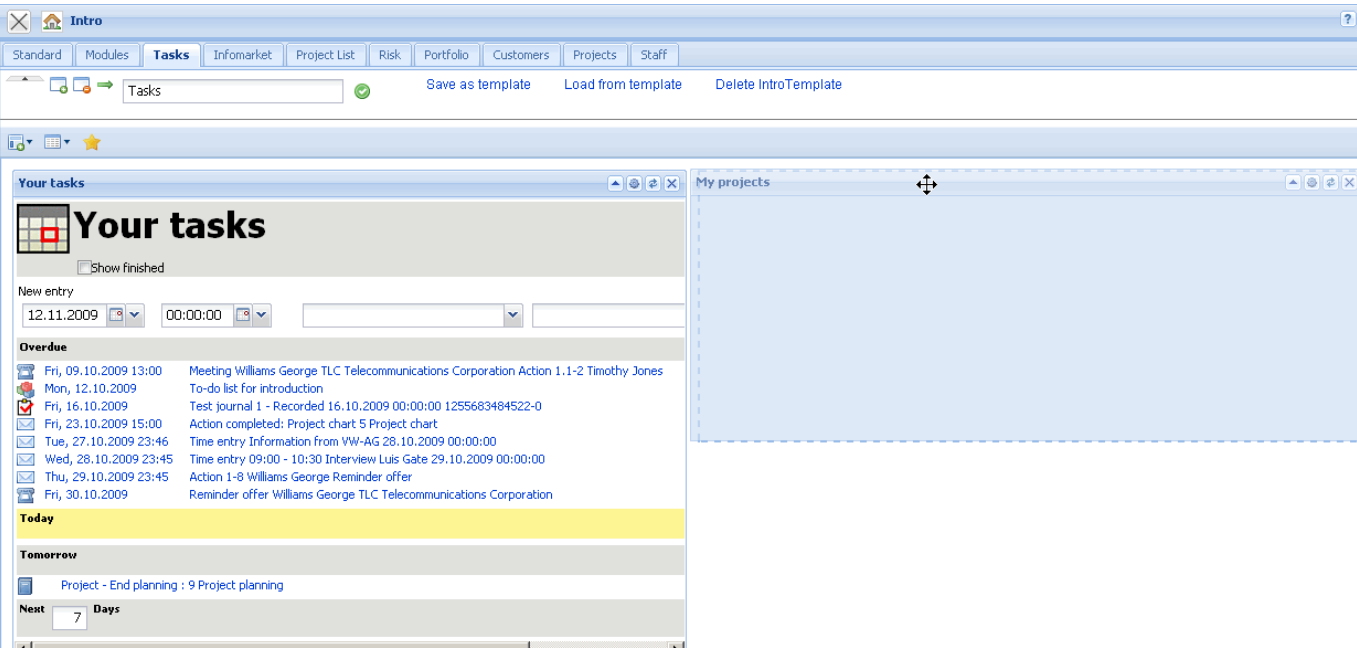

The My project form is added here.

The screenshot shows the 'Intro' application interface. The 'My projects' form is a dropdown menu with options: 'My projects', 'Info market', 'Chart', 'Query', 'My dates', 'Classic intro', and 'Your tasks'. The 'My projects' option is selected, and the 'Your tasks' window is visible in the background.

This can be moved per Drag&Drop ...

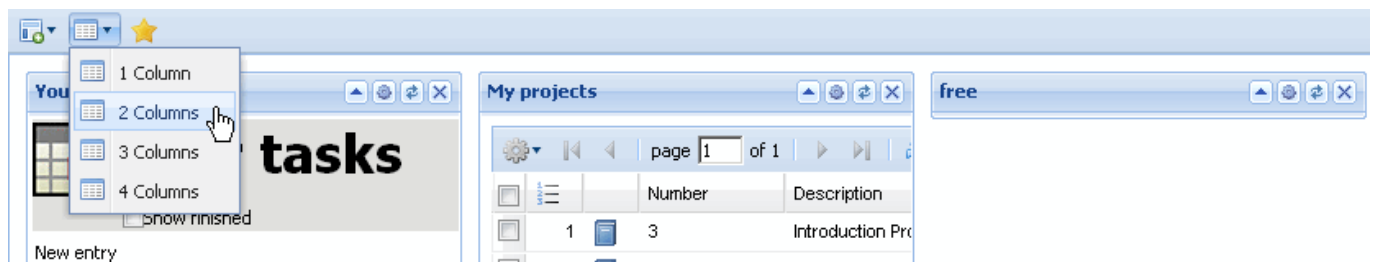

to a different area ...

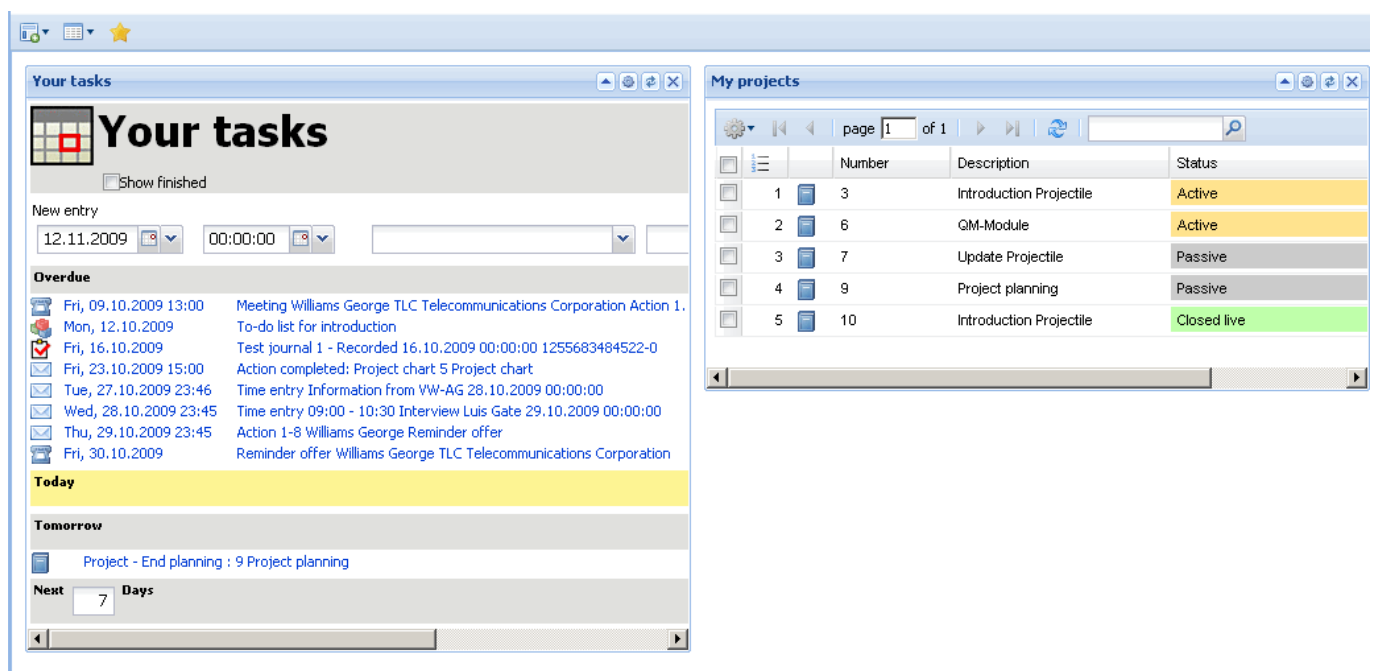

Possible Settings

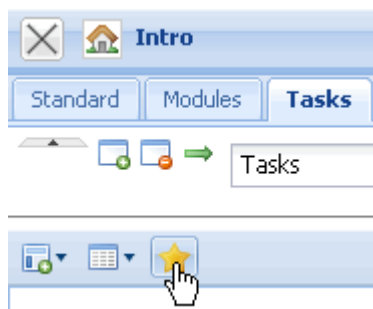

The 2nd button on the lower toolbar defined the amount of columns which should be displayed.

By changing the columns from 3 to 2, the view changes the existing modules:

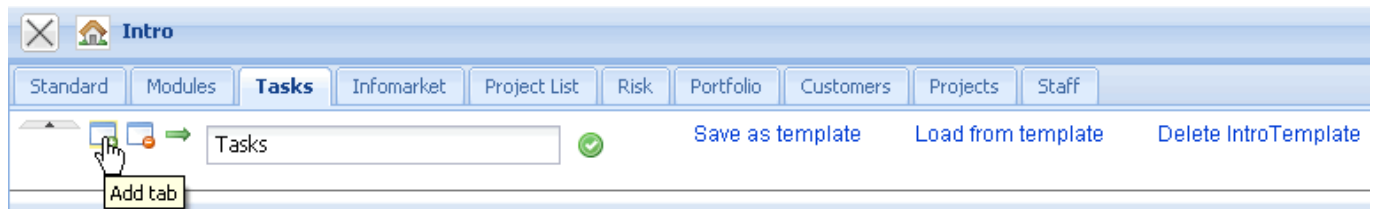

By clicking the favorite button ...

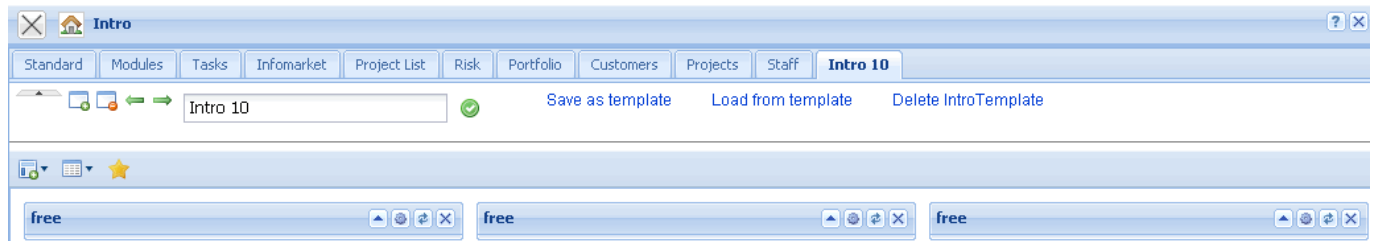

the current tab becomes the standard tab, i.e. when logging in, this tab is always opened first.

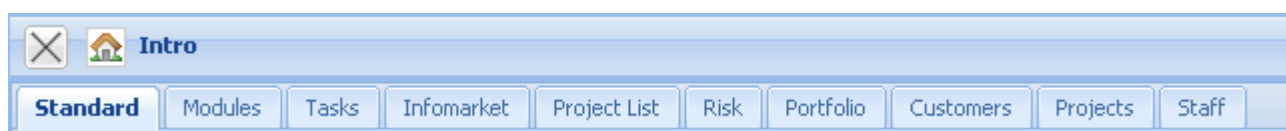

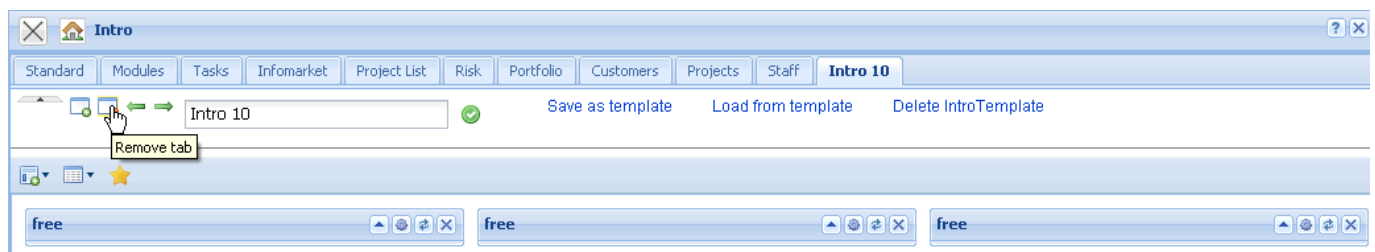

In the top menu bar, further tabs can be added ...

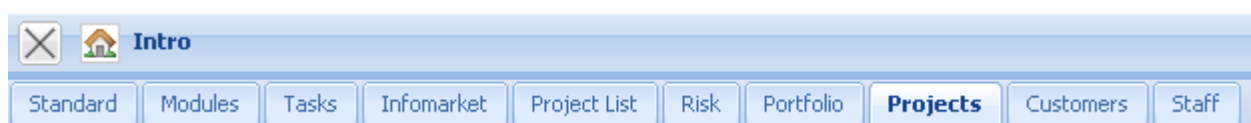

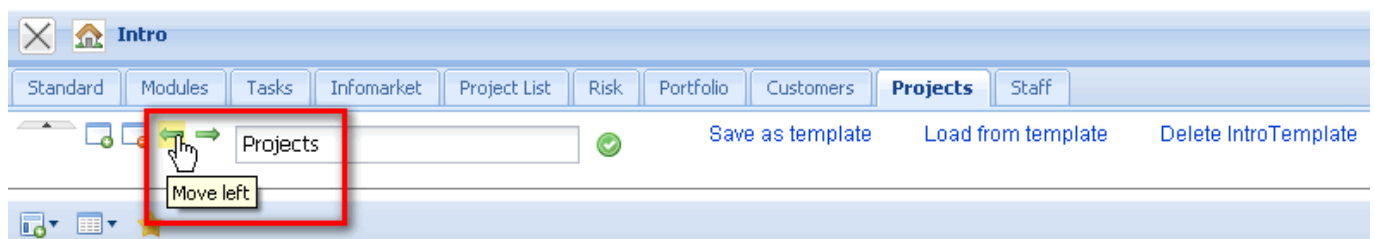

which are included on the right.

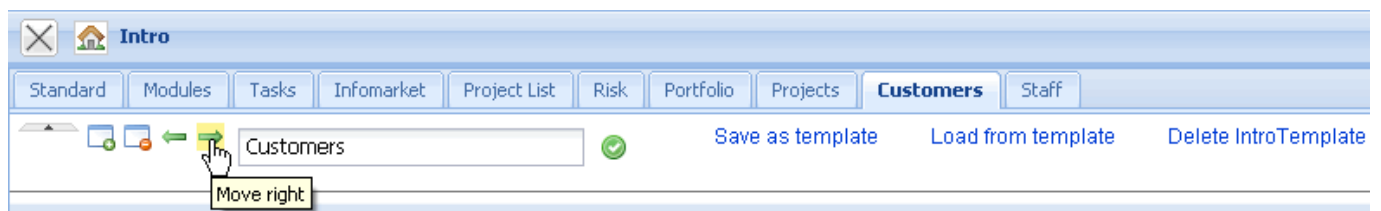

Tabs can also be either deleted ...,

moved to the left ...

or moved to the right.

The intro configuration can be saved ...

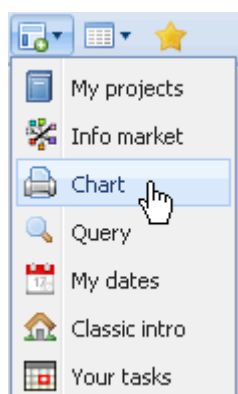

A screenshot of a dialog box titled 'Please enter Name'. It has a green information icon in the top left. Below the title, it says 'Existing Names'. Underneath, 'MyIntro' is listed. There is a text input field containing the text 'Template for project manager'. At the bottom, there are two buttons: a green 'OK' button and a red 'Cancel' button.

and existing configurations can be loaded ...

A screenshot of a dialog box titled 'Please select: IntroTemplate'. It has a green information icon in the top left. Below the title, there is a dropdown menu. The dropdown menu is open, showing a list of templates: 'MyIntro', 'Template for Project manager', and 'Template for project manager'. A mouse cursor is pointing at the last item, 'Template for project manager'.

Adding Charts

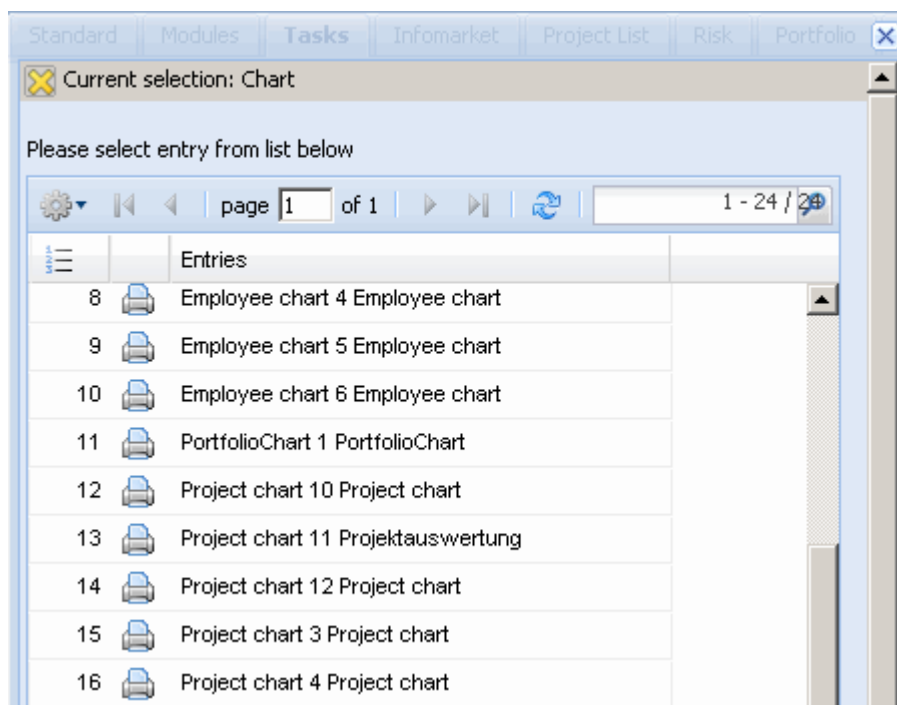

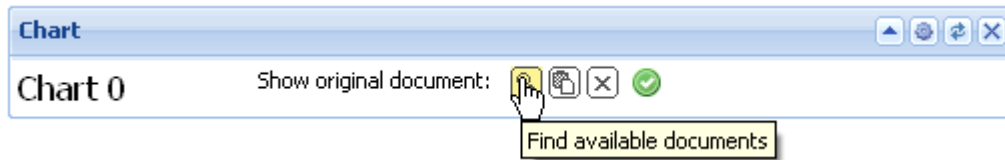

On the intro screens, charts can be displayed. In the configuration of the intro screen, "Chart" can be selected in the menu bar.

An empty chart screen is then displayed on the left.

Using the function “Find available documents” all saved charts are displayed ...

and assigned.
