3.03 Forms and Form Elements

Projectile consists of many forms. The example displays a project form. All forms in the system, excluding the charts and the TimeTracker, are built in the same manner.

	Further information for document (Additional information)
	Properties of the document which refer to the access rights (see Administration guide)
	History of the document (see also chapter 3.07.2 History)
	Check plausibility of the document
	Reload the document
 (no data added),  (data added)	Optional component "Flyer" for data administration within the system (see also chapter 3.04.2 Document Administration "Files")

The screenshot shows the 'Project 3 Introduction Projectile' form. The 'Actions' menu is open, displaying a list of actions: Planning, Workflow, Occupations_Rates, Offers_Billing, Manage, and CreateOrder. The 'Offers_Billing' sub-menu is also open, showing '11 - Generate new offer' and '12 - Generate new invoice'. The form fields include 'Project number' (Number 3), 'Description' (Introduction Projectile), and 'Project start/end date' (From 09.06.2009 To 30.11.2009).

Several forms have tabs. The tabs structure the forms better and provide a better overview, especially for forms with many elements. The tabs can be configured in the xml templates by the administrator (see Administration Guide).

The screenshot shows the 'Project 3 Introduction Projectile' form with tabs. The tabs are: Master data, Involved persons, Portfolio, Status, Budget, Financial data, Order data, Documentation, and Misc. The 'Involved persons' tab is highlighted with a red box and a mouse cursor. The form fields include 'Project number' (Number 3), 'Description' (Introduction Projectile), and 'Project start/end date' (From 09.06.2009 To 30.11.2009).

To change tabs, click on the tab.
