3.04.3 Group Organizer "Team-Calendar"

The group organizer manages project relevant appointments (milestones, external and internal appointments, project actions) and person-related events (absences, such as holidays and illness, bank holidays, general operations, ...). The calendar can be opened for the user, the group (such as unit) or for all the employees for any period of time. With the appropriate permissions, appointments can not only be displayed, but also be defined.

Bank holidays, absences, milestones and open actions are transferred from the appropriate record data in the system. Appointments can be freely defined (with sufficient permission). In addition, the scheduled employees to these appointments can be notified through the internal mail system Mailer.

The calendar is opened through the toolbar.

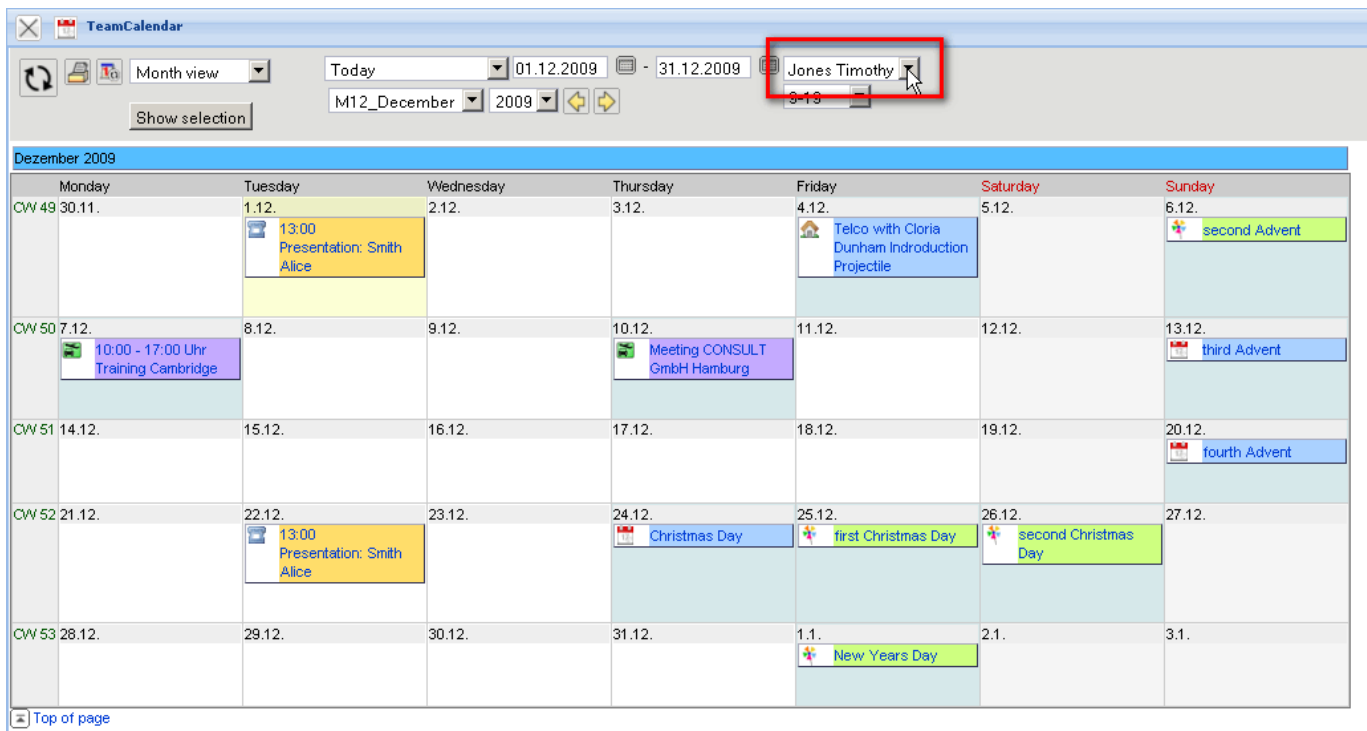

In the following example, the calendar of the user !!!!! is open for the current month.

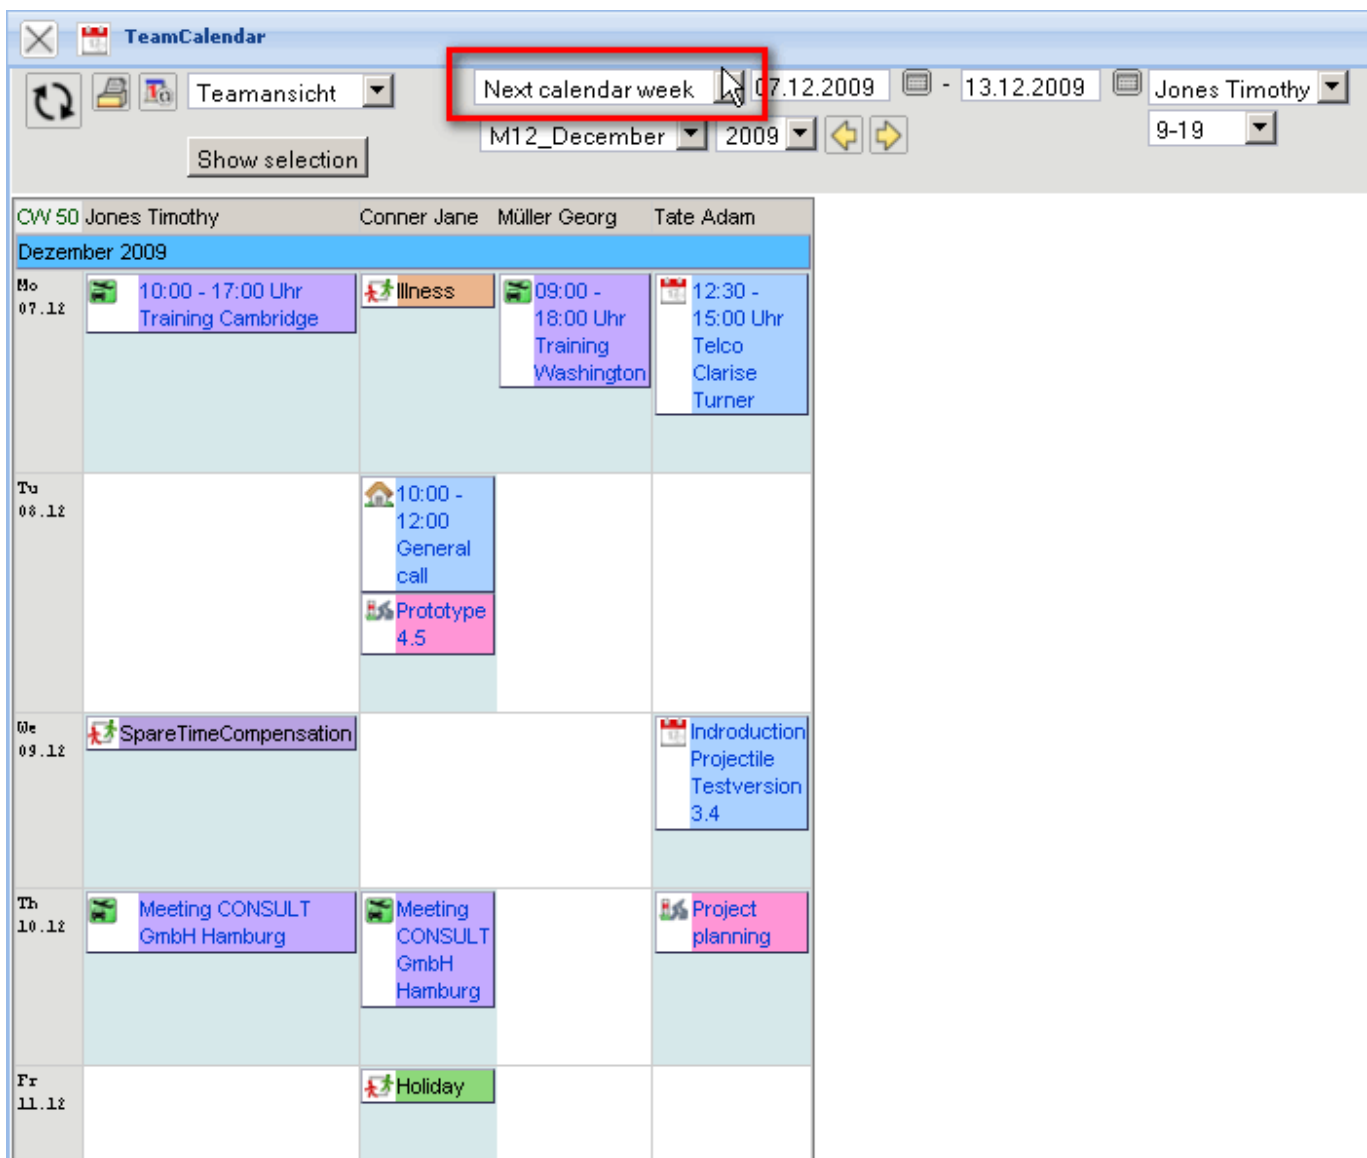

All appointment types (including milestones) are displayed, the black entries from the defined actions and the purple entries have been defined in the calendar itself.

New Year	Green entries are used from the bank holiday definition (see bank holidays)
13:00 Presentation: Smith Alice	Yellow entries are from the contact administration (see actions).
10:00 - 12:00 General call	Blue entries are from internal appointments.
Meeting CONSULT GmbH Hamburg	Purple entries are from external appointments.
Programming	Pink entries are personal milestones of the employee (see milestones).

The calendar supports and displays (with appropriate permission) also the appointments of other employees.

In the calendar the time interval of the display can also be changed (here in team overview).

Sa 12.12				
Su 13.12	third Advent	third Advent	third Advent	third Advent

By using the action "Show Selection" the settings of the calendar can be viewed and changed.

The selections "Employee" and "Units" provide filters for individual employees or units (organizational units, such as departments), and the selection "Entry" can filter the entries by the type of dates.

The screenshot shows the TeamCalendar application window. At the top, there are navigation controls including a refresh button, a 'Teamansicht' dropdown, and date selection fields for 'Next calendar week' (07.12.2009 - 13.12.2009) and 'Jones Timothy'. Below this is a 'Show selection' button and a 'M12_December 2009' dropdown with navigation arrows. The main interface is divided into several sections: 'Further employees' with a 'Find available documents' button; 'Units' with a table listing 'Marketing and Sales'; 'EntryTypes' with a list of event types like 'Absence', 'Action', 'Holiday', 'Milestone', 'TimeEntry', and 'ToDo'; 'Add invited' with a checked checkbox; and 'Show scheduled holiday' with an unchecked checkbox. At the bottom, there are time slot columns (08:00:00 to 20:00:00) and a 'Display' dropdown set to 'CHART'. The calendar grid shows entries for 'CW 50 Jones Timothy', 'Conner Jane', 'Müller Georg', and 'Tate Adam' in December 2009, with specific events like 'Training Cambridge', 'Illness', 'Training Washington', and 'Telco Clarise Turner'.

With  the display of the calendar is refreshed.
