3.07 Archives und History

Projectile includes optional a trash functionality (archive) and a document-based history.

3.07.1 Archives / Recycle Bin Functionality

If the document is no longer needed in the active data pool, by clicking on ...

The screenshot shows the 'Project 13 Implementation Projectile 3.0' interface. At the top, there is a menu bar with 'Document', 'Edit', 'View', 'Back references', and 'Actions'. Below the menu bar is a tabbed interface with tabs for 'Master d', 'Delete the document', 'Ins', 'Portfolio', 'Status', 'Budget', 'Financial data', 'Order data', 'Documentation', and 'Misc'. The 'Master d' tab is active.

The main form contains the following fields:

- Project number:** Number 13
- Status:** Closed live
- Description:** Implementation Projectile 3.0
- Project start/end date:** From 30.11.2009 To 09.12.2009
- Parent project:**
- Subprojects:** A table with 2 entries:

	Number	Description	Status
1	13.1	Implementation	Closed live
2	13.2	Planning	Closed live
- Processes:** A table with 1 entry:

	Process number	Description	Begin date planning	End date planning
1	13-1	Development	30.11.2009	09.12.2009
- Milestones:** No entries
- Grade of completion:** A table with 3 entries:

	Number	State
1	13-A	30,00
2	13-B	60,00
3	13-C	100,00

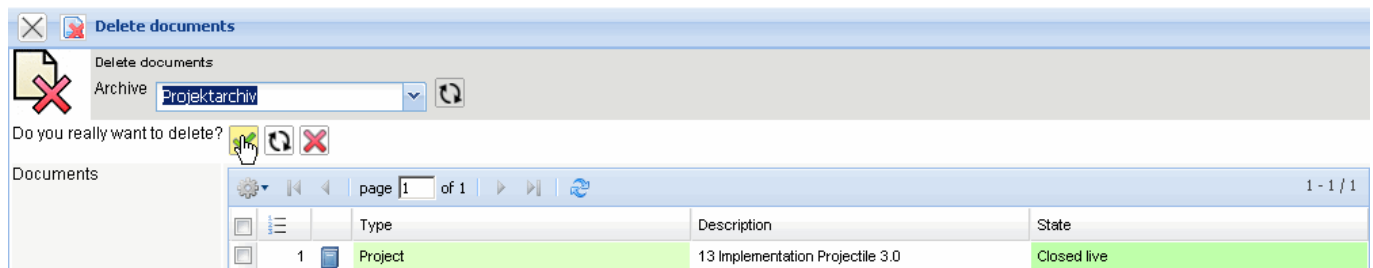

... it can be deleted.

Before the document is deleted, a dialog appears; with the question of whether we really want to delete.

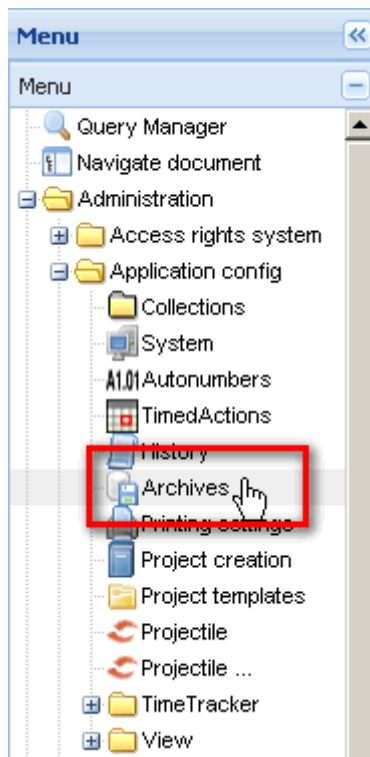

This dialogue is a security precaution, since the deletion can be undone only by selected users (see also recycle bin / Archive). If the project is deleted, it can be restored from the recycle bin. Analogically the archiving also functions for future restoring of projects or of other data pool.

In the following example, the project 105 Implementation Projectile is moved to the project archive. This process may take some time for larger structures.

With the functionality  the recycle bin or the archive can be accessed.

In the search dialog you can enter a search text, or a document type, date of deletion and the sort order.

In the example you can search for all projects in the project archive, which have been deleted after 01.12.2009:

Suche im Archiv

Archiv: Projektarchiv ☒

Suchtext:

Dokumenttyp: Projekt

Gelöscht von: 08.01.2007

bis:

Aufsteigend: ☐

Suche im Archiv

Archive: Projektarchiv

Free text:

Document type: Project

Deleted from: 01.12.2009

To:

Ascending: ☐

The system finds three archival projects (the upper project 13 and the two sub-projects of the project 13).
