3.10 Knowledge and Information Management System "Infomarket"

The optional module, information market is a functionality which can be used as a web-based information system for knowledge management. Each user participates in the maintenance of the information or contributions to the information market. Therefore usually, the system requires no moderation or editor.

The screenshot shows the Infomarket application window. At the top, there's a toolbar with icons for file operations like Open, Save, and Print. Below the toolbar is a search bar labeled 'Find' with a dropdown menu set to 'QueryFulltext QueryMode' and a search button. To the right of the search bar are buttons for 'ANY' and a dropdown menu. Below the search area, it says 'Total Statistics: 12 KeyWords 20 InfoNodes 20 SoftLinks'. There's also a 'QueryCategories' dropdown and a download icon. The main content area has three sections: 'Favourite key words' (a table), 'Latest key words' (a table), and 'News board' (a table). The 'Favourite key words' table lists terms like 'Information Desire', 'Projectile', 'Project EP', etc., with counts from 0 to 4. The 'Latest key words' table lists terms like 'Information Desire', 'Projectile', 'Project Management', etc., with dates ranging from 14.10.2009 to 12.10.2009. The 'News board' table lists terms like 'Projectile', 'Backup', 'Project EP', etc., with dates ranging from 14.10.2009 to 12.10.2009.

Favourite key words		Latest key words		News board	
Information Desire	4	Information Desire	14.10.2009	Projectile	12.10.2009
Projectile	3	Projectile	14.10.2009		
Project EP	1	Project Management	14.10.2009		
Java	1	Project Portfolio Management	14.10.2009		
Project Portfolio Management	1	Backup	14.10.2009		
Backup	0	Project EP	14.10.2009		
MySQL Tuning	0	Java	14.10.2009		
Project Management	0	capacity planning	14.10.2009		
TimeTracker Administration	0	CMS	14.10.2009		
SQL alter table modify	0	SQL alter table modify	14.10.2009		
CMS	0	TimeTracker Administration	14.10.2009		
capacity planning	0	MySQL Tuning	14.10.2009		

The entrance is via a search box which displays the most popular and latest information. Either there is a link to the information or a term is entered into the search engine. In the following example, all direct and indirect information about Projectile is listed. In the following example, all direct and indirect information for the term Projectile is listed.

The information is accessed through the links as the basis from “knowledge”. There are hard links and soft links in infomarket.

In the example, the word “project management” is a hard link, which points either to another entry in the infomarket or requests another user to contribute information to this entry. The URL (www.infodesire.com) and the link to Projectile forms (Project EP Implementation) is also a hard link, but does not refer directly to information in the infomarket, but to a website and two project documents in the system.

The screenshot shows a software application window titled "Project EP". The main content area displays a project entry for "Projectile Project EP". The entry includes a brief description: "Projectile is a project management solution with 100% pure web clients. It supports business service providers with the tracking of time and cost, with offer and billing management and a comprehensive reporting system." Below the description is a link to "www.infodesire.com". On the right side of the screen, there are two columns of "Key Words": "Referred Key Words" (Projectile, Backup, Java) and "Refering Key Words" (Projectile, Java, Information Desire). A sidebar on the left contains icons for file operations like edit, save, and delete. A "See also" section lists "Project EP Implementation Projectile" with a small icon of a hand pointing at it. A blue plus sign icon is located at the bottom left of the main content area.

The terms on the right side (Projectile, Backup, Java, ...) are so-called soft links and specifies information which has been called by the current entry. As in the human brain, more often used links are emphasized more in the list.

The following illustration displays the input dialog for infomarket:
