3.11.05 Occupation Administration

The occupations in Projectile are the basis for staff planning, internal accounting and billing. As a basis for determining the internal costs and billable services are the charging rates which are assigned to these occupations. This definition applies to the entire installation.

For project-related differences in [pricing](#) and [costing](#), these billing rates can be modified for each project.

Occupation	Programming
Description	Programming
Hourly external cost rate	100,00 EUR
Hourly internal cost rate	75,00 EUR
Hourly price production	88,50 EUR
Parent occupation	Programming and customizing
Suboccupations	☐ Programming - DB ☐ Programming - Java ☐ Programming - XML
StatusActive	☒
Note	

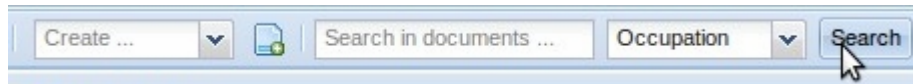

Required fields: Occupation, Description (when using the skill-matrix chart)

Characteristics:

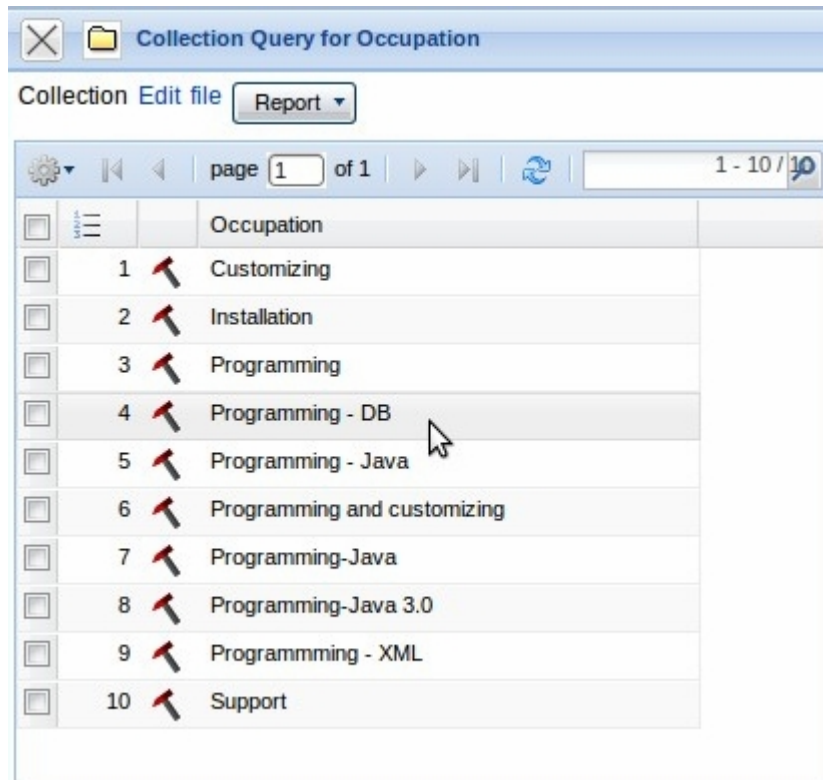

- The cost rates for billing of services are used only for projects where there is no customer rates, project rates or employee rates have been defined (see also document types [customer](#) and [project](#)).
- The internal cost rates will only be used if no entry for the internal charge rate for the employee (or the [2.01.25 employment contract](#)) is stored.
- The production costs can be used with certain accounting of the company; in the standard version of these rates are not used in cost accounting.

Data Management

If an existing occupation is to be extended or modified, the relevant documents can be searched in the [search engine](#) ...

... and displays the appropriate search results.

After activating the link, the selected document is opened and the changes or modifications can be made. In the following example, the occupation “Programming - DB” is divided into three sub-occupations. First, “New Document” in the element sub-occupation is activated.
