4.06 Create Order Confirmation

Create

If a customer's order has to be stored in the system (for example in partial order) an order confirmation can be created by using the function "Create" in the intro screen or through the last offer version. The information of the order confirmation (order value, order number, order date) will be transferred to the order tab of the project.

An order confirmation can be created either through the navigation bar above the form or through an offer when a (partially) project order has been accepted:

By using the action 08 - Print contract note...

The screenshot shows a web application window titled "ConfirmationHeader 2009-0003". The interface includes a menu bar with "Document", "Edit", "View", "Back references", and "Actions". The "Master data" tab is active, displaying fields for Confirmation number (2009-0003), Project (3 Introduction Projectile), GroupingOption (No grouping), Amount (8.500,00 EUR), Value added tax (VAT-GB-15), ConfirmationTotal (9.775,00 EUR), and Employee (Conner Jane). The "Actions" dropdown menu is open, showing a list of actions: 01 - Include jobs, 02 - Include budget items, 03 - Include external items, 04 - Finalise contract note, 05 - Cancel contract note, 06 - Delete contract note, 07 - Remove link to original, 08 - Print contract note (highlighted by a mouse cursor), 09 - Print contract note (grouping dialog), DesignTemplate, NewFromCancelledConfirmation, and NewInvoiceFromConfirmationHeader.

...the order confirmation can be printed. The system generates an rtf-file, which can be opened or saved in the following dialogue.

The screenshot shows a "Fileset" dialog window. It features a "Download" button and a list of files. The list has columns for "#", "Open", "Save", "File", "Size", and "Last modified". A single file is listed: "Confirmation.rtf" with a size of 31,22 kB (31.965) and a last modified date of 19.10.2009 13:15:51. A mouse cursor is hovering over the "Open" icon for this file.

The "open" option opens the generated order confirmation in a configured browser or in a word-processing program.
